SMITH WILL LAUNCH CAMPAIGN NIGHT OF AUGUST 22

ORDER PEDDLER FROM CITY FOR LACK OF PERMIT

Stoffer Chases Man Into
Prospect School After
"Rum Bag" Is Seen

FIND DRY GOODS IN PEDDLER KIT

Admits Selling In City
Without License; Taken
To Car, "Seen Off"

A peddler of dry goods was escorted out of the city Monday by Salem police after he was arrested by Patrolman Ralph Stoffer and brought before Mayor Phil G. Hiddison on charges of selling in the city without a permit.

Stoffer was on Prospect st. yesterday afternoon and noticed the suspicious actions of a man carrying a peddler's bag. The man dodged behind some bushes and ran down Prospect.

Thinking the man was a "booze" peddler with a traveling bag full of liquor, the officer gave chase and found the man hiding behind a door in the basement of Prospect school.

The man denied the possession of liquor and admitted that he was selling in the city without a permit. He was taken before Mayor Hiddison and stated that he had gotten off an interurban car at the city limits to avoid being seen. He was working in the southwest section of the city.

"Well," Hiddison declared, "the next car leaves in eight minutes. Patrolman Reardon will see you off."

Applications to peddle in the city are consistently being refused by Hiddison, when the goods to be placed on sale are the same as that sold in local stores.

Twelve applicants for licenses to sell medicine on downtown street corners were refused last week.

WOMEN IN LAKE

Salem Man Rescues War-
ren Swimmers at Dun
Eden Park Sunday

Two Warren women narrowly escaped drowning while bathing at Dun Eden park, Ellsworth rd., Sunday afternoon through prompt rescue by Dr. G. D. Dunn, owner of the park. It was revealed today.

Dunn, standing on the bank, dove into the lake with clothes on and brought both women to shore, after hearing their cries for help.

The women were swimming in the middle of the lake about 30 feet from the shore, apparently attempting to swim to the other side, when one sank from sight, tired and exhausted from her attempts to gain the other shore.

She grasped her friend, the daughter of William Clay, Canfield rd., pulling her down with her.

Dr. Dunn was the only person near the women, the rest of the bathers being further down the lake and with clothes on, he dove into the lake and brought the women to shore.

Neither woman suffered any ill effects.

CHRIS ZIEGER DIES SUDDENLY

Chris C. Zieger, 85, of Columbus, Ohio, died suddenly Monday at Kalamazoo, Mich., where he had gone to attend the house sale.

Mr. Zieger was born near Petersburg, Pa. and spent his life in the vicinity of Columbus. He was a member of the Methodist church, Columbus.

Surviving are two brothers, John Zieger, Madison, Ohio, and William Zieger, Chicago, and a sister, Mrs. William Stoll, of Youngstown. He was not married.

Funeral arrangements have not been completed.

DIES IN FLAMES FROM GASOLINE

East Liverpool, July 24.—Harry Ramsey, Fushion, W. Va., was burned to death today in a fire which followed the explosion of 10 gallons of gasoline which he was transporting to his home.

Police expressed the belief that sparks from a lighted cigar ignited the gasoline.

STANFORD GIVES HOOVER CHEERS; FINISHES SPEECH

Nominee In Happy Mood,
Receiving Reports Of
Strength In East

Stanford University, Cal., July 24.—Herbert Hoover today put the finishing touches to his speech, accepting the Republican presidential nomination and laying down issues for the 1928 campaign.

The Republican nominee spent the morning working on the party document which he will read in Stanford University stadium Aug. 11 but which the whole nation will hear over the radio. The nominee expects to complete his task by tomorrow, after which he will be getting a brief rest before leaving Saturday on a four-day fishing trip to the Klamath river in Northern California.

Hoover was in good humor this morning, after receiving the plaudits of the alma mater last night. The student body of Stanford, led by Templeton Peck '29, president of the student's union, paraded to the nominee's home on San Juan Hill overlooking the university campus.

There, the students—girls and boys—sang college songs and cheered the nominee. The celebration delighted Hoover.

Mrs. Scranton Brings Cheer
Hoover had two political appointments today. Mrs. Worthington Scranton, national committeewoman from Pennsylvania, was to call on him this afternoon. Mayor James Rolph, Jr., of San Francisco, also

Nina First Yacht To Arrive In Race

Santander, Spain, July 24.—Taking full advantage of a fresh breeze that sprang up suddenly, the sailing yacht Nina in the New York-Santander race for the king's cup arrived here at 3 p. m. today and was given a noisy welcome.

The Nina was the first of the yachts in the contest to reach port. All had been delayed by lack of wind.

The Friends society, Quakers, at the 1926 census had a membership of 91,253 and but 714 churches in comparison to 18,939 churches for the Catholic church.

While all religious census reports for 1926 have not been compiled figures obtained at the library of congress showed that the Protestant population of United States numbers approximately 28,500,000.

Census bureau figures reported the value of Catholic church property in 1926 at \$837,205,053 as compared to a valuation of \$374,206,895 ten years before. Total expenditures for 1926 reported by 16,316 of the

Catholic Churches amounted to \$204,522,987, of which \$181,734,284 went for current expenses and improvements, \$19,281,523 for benevolent and missions and the remainder unclassified. In 1916, 13,722 churches reported expenditures of \$72,258,136.

Half of the total Catholic membership was concentrated in New York, Pennsylvania, Massachusetts, New Jersey, and Illinois. New York has 1,783 churches and 3,115,414 members.

In Pennsylvania were found 1,729 churches with a membership of 2,124,119; Massachusetts, 705 churches and 1,629,424 members; Illinois 1,054 churches and 1,352,719 members; New Jersey 569 churches and 1,055,998 members.

North Carolina had the lowest Catholic church membership of any state with 6,900.

The Catholic church is essentially a religious body of the cities, the

MUSSOLINI QUIZ OF POLE FLIGHT STARTS IN FALL

Premier Will Conduct His
Own Probe to Silence
Darts of Critics

STORY THAT ZAPPI ATE BODY PERSISTS

Daily Mail, London, Says
Malmgren's Flesh Was
Survivor's Food

Rome, July 24.—Italy's inquiry into the conduct of the Noble expedition, which has been ordered by Premier Mussolini to still hostile criticism throughout northern Europe, is expected to be opened late in September or early in October.

It is believed that it will be directed by Mussolini himself.

All the rescued members of the Noble party will have reached Italy within the next fortnight, unless the order to return immediately is countermanded.

Approximately eight weeks will be allowed for a continuation of the search for the six missing members of the Alessandri group—the men who were carried away with the envelope of the Italia on May 25.

Will Take Zappi Statement
"Official" statements will be taken from Capt. A. Mariano and Philip Zappi regarding the fate of Prof. Finn Malmgren, the Swedish scientist whose mysterious death has not yet been cleared up.

It is deeply regretted here that, in some countries, political criticism against fascism has been allowed to color the comment upon the unfortunate outcome of the expedition.

This feature of the situation was touched at length by the statement of Premier Mussolini to the council of ministers.

Radiograms from King's Bay state that General Noble is still in feeble condition from his hardships and that he is showing traces of his deep worry over the unlucky outcome of the polar voyage.

Body Eating Story Persists
London, July 24.—While resentment in Italy against hostile criticism of the Noble expedition is growing, feeling in the Scandinavian countries is running higher.

The Daily Mail today printed a Copenhagen dispatch saying that it is persistently rumored that A. Mariano and P. Zappi, frantic with hunger, devoured part of the body of Prof. Finn Malmgren, the lost Swedish scientist, who was with them.

Zappi, who was picked up with Mariano by the Russian ice breaker Krassin and later transferred to the Citta Di Milano is reported at Copenhagen to be very ill as the result of hardships on the arctic ice.

At the session, presided over by Mrs. H. H. Hart, there were short speeches on the general policies of the campaign by Hubert Work, national chairman; Franklin Fort, national secretary; J. Francis Burke, general counsel for the national committee, and Mrs. Hart.

Pursuant to a suggestion by Mrs. Hart made several days ago that committeewomen from states other than those actually covered by the conference, attend the meeting, Mrs. Beulah Hughes, Tennessee, Mrs. Hugh Clark, Ohio, and Mrs. W. E. Kennan of North Carolina, national committeewomen, were also present.

The meeting, while distinct from the meeting of the Republican national committeemen held in New York yesterday, was participated in by the same states with the same purpose, of taking up the gauge of battle in the east.

"This is to be absolutely a business meeting," declared Mrs. Alvin T. Hart, of Louisville, national vice chairman in charge of the women's part of the campaign. "We are here to work and we mean to work from now until election day. It goes without saying that we will make an intensive campaign for Mr. Hoover and Senator Curtis and I am confident of their election."

Ball Babe Socked In 40th Home Run May Save A Life

Boston, July 24.—A smile flitted across the pale little face of 13-year-old Brenton Stolz as he lay on his cot in Peter Bent Brigham hospital today. Fend memories were his. In his hand he held a baseball—the ball which Babe Ruth hit yesterday in making his 40th home run of the season.

Ruth had heard that little Brenton was close to death, that he kept asking for him. With the cheers of the Fenway park fans still humming in his ears, the world's greatest baseball player went immediately to the hospital, autographed the home-run baseball and gave a surprise to Brenton. Babe told the lad to get better and he seemed to rally.

That 40th home run may save a life.

DELAY DECISION IN SANDY LAKE OWNERSHIP ROW

Columbus, July 24.—Decision as to ownership of Sandy Lake, Portage county, which was to have been made this week by the attorney general's office, was delayed until next week. It was announced here today because of lack of complete data.

Property owners of abutting property on Sandy lake are seeking to show the lake belongs to the state of Ohio and therefore public property, and thereby forcing the Cleveland Worsteds mills, Cleveland, to cease prosecuting persons using the waters of the lake.

Factory Warming At National Sanitary Will Be Held Soon

A "factory warming" will be held at the National Sanitary company plant as soon as the plant is in full operation. C. C. Burton, president, announced today.

The plant, since its completion has been busy, operating about 75 per cent of its full capacity and plans to go into full operation soon.

Operation of the different departments of the plant will be open to the public at the date set for the "factory warming," which will be announced soon.

FRENCH FLIERS READY FOR HOP

Repairs Made To Plane;
Paris and Aides Bound
For American Coast

Horta, Azores, July 24.—Lieut. Paulin Paris, noted French flier and his two companions will continue their flight to America today if they can complete repairs on their seaplane, The Frigate, in time.

The fliers completed the first leg of their flight at 5:30 a. m. yesterday morning after an uneventful journey from Brest, France.

They had intended continuing the flight almost immediately but it was discovered that slight repairs were necessary.

Rockford, Ill., July 24.—Bert Hassell, veteran Rockford flier who hopes to wing his way across the top of the world to Stockholm, Sweden, in his monoplane the "Greater Rockford," early today awaited reports from his base at Mt. Evans, Greenland, as to atmospheric conditions between here and the Atlantic seaboard.

Old Lighting Poles Have Been Removed

Work of taking down the wooden poles of the old overhead wire lighting system downtown was completed today. The last poles were at the corner of Broadway and Main.

All of the wooden concrete poles now have been removed and replaced by the steel standards of the new ornamental lighting system.

RASKOB RESIGNS GENERAL MOTORS CHAIRMANSHIP

Leaves Post On Finance
Committee Because Of
Political Work

TO RETURN AFTER ELECTION IS OVER

Resignation Is Distinct
Shock To Wall Street
Despite Rumors

New York, July 24.—The resignation of John J. Raskob as chairman of the finance committee of General Motors Corporation was accepted today.

Raskob resigned so as to be free to take complete charge of the campaign of Gov. Alfred E. Smith for the presidency. Raskob recently was elected chairman of the Democratic national committee.

The acceptance of Raskob's resignation was announced by Alfred P. Sloan, president of General Motors.

General Motors Stock Drops
In a statement Sloan said Raskob's resignation "has been under consideration and it is due to the interest of both the corporation and Mrs. Raskob to accept the same, it has been done with the greatest regret on the part of the entire organization."

The news that Raskob had tendered his resignation had its effect in Wall street shortly before Sloan's statement was issued. General Motors stock lost almost three points and was a factor in a wave of selling that also sent some of the other issues to a lower basis. The unusual situation of Raskob holding two jobs, the political and financial, had aroused considerable discussion in the financial district in the last week.

New York, July 24.—Confirmation that John J. Raskob has resigned, temporarily, as chairman of the finance committee of General Motors corporation was given today by Mrs. Henry Moskowitz, adviser to Gov. Alfred E. Smith.

Raskob did so, Mrs. Moskowitz said, in order to be able to devote his entire time and attention to electing Governor Smith to the presidency. He still retains his position as vice president and director in General Motors, however, and is expected to take charge of the finance committee again after the election.

Too Much Work Found
When he accepted the position of chairman of the Democratic national committee, Raskob did not intend to sever his connection with the corporation which he helped attain its present gigantic proportions.

So multitudinous, however, did he find today because of lack of complete data.

Property owners of abutting property on Sandy lake are seeking to show the lake belongs to the state of Ohio and therefore public property, and thereby forcing the Cleveland Worsteds mills, Cleveland, to cease prosecuting persons using the waters of the lake.

FOUR INJURED IN FREIGHT WRECK

Negro Tramps Hurt when
Train Is Derailed At
Burbank, O., Today

Wooster, July 24.—Four persons were injured and 52 freight cars were smashed and burned when an Erie freight train was derailed and crashed through a bridge a mile west of Burbank early today.

Those injured were four negroes who were train riding in a "side door Pullman."

The train crew escaped uninjured.

This is the second disastrous freight train wreck to occur in this vicinity within as many days.

Yesterday 12 cars of a Pennsylvania freight train were wrecked within the city limits here. Traffic was restored here early this morning after wrecking crews worked all night in clearing away the debris.

DRIVER FINED \$100 ON CHARGE

M. T. Frandorfer, Leconia, pleaded guilty to a charge of driving while intoxicated and was fined \$100 and costs by Mayor Phil G. Hiddison Monday.

Frandorfer was arrested by Patrolman Ralph Stoffer after he ran into two machines on Broadway, damaging both at 5:45 p. m. Friday.

Hold Father, 73, For Shooting of Son, 35

Akron, July 24.—Ernest Weeks, 35, Akron merchant, was believed dying in City hospital here today and his 73-year-old father is held by police accused of shooting him during an argument over the division of property Monday night.

The father, police say, climaxed the argument by drawing a large calibre revolver from his pocket and firing at his son.

The bullet took effect in the chest and passed through the body.

Cincinnati, July 24.—Hoary old river men, some of them bearded skippers of the old time lordly steamboats which plied the Ohio in bygone days, hobbled determinedly to the public landing at the foot of Sycamore st. here today, intent on viewing the spectacle which provides the river to regain, for a brief time, its former romance and glory—the long-looked-for race between the "Betsy Ann" and the "Chris Greene" at 5 o'clock.

Heads nodded sagely and river-wise comment was rife as these former "masters of the deck" noted, with sparkling eyes the trim lines of the two crafts as they tugged lazily at their moorings.

Not Another Fad

Gail Schwartz of Chicago, neither owns these amber necklaces nor wears them regularly. They belong to one of the world's finest collections and are being displayed in this country by a London collector.

BURY CARRANZA, GOODWILL FLIER, IN HONOR GRAVE

Nation Forgets Political
Quarrels to Mourn At
Bier of Airman

Mexico City, July 24.—A college boy, Arturo Garcia, typifying the youth of the Republic, delivered the funeral oration when Capt. Emilio Carranza, Mexico's beloved young "ace" was buried today amid the country's illustrious dead in the Panteon Dolores.

The body was borne to the cemetery upon a gun carriage and was draped with Mexican and United States flags.

Thousands of men, women and children lined the roadway to the cemetery as the body, escorted by cadets from the Military academy, the presidential guard and a group of military airmen, passed.

Mexico City, July 24.—Political quarrels were forgotten today while the whole populace mourned at the bier of Capt. Emilio Carranza, the young Mexican "good will airman," who was killed while flying from the United States where he returned Col. Charles A. Lindbergh's Mexican visit.

There was an emotion in the republican's grief that transcended the sorrow over the Obregon tragedy.

Throughout the night the body rested in state in the war department, the coffin banked by magnificent floral tributes while an honorary guard of soldiers stood by.

Shortly after dawn crowds were astir in the streets for the funeral. An influx from neighboring states

THE BRITISH SURRENDER

American commerce never has scored a more spectacular triumph than is to be found in abandonment by the British government of restrictions on exports of rubber from British colonies, which is to become operative the first of November. Less than a week after this regulation takes effect, the American people will be offered an opportunity to vote for Herbert Hoover, the man who led the Americans to this victory over a foreign monopoly.

Restrictions were intended to enhance the price and to swell British revenue. As the British colonies produced three-fourths of the world's supply of rubber, and as the United States consumed about 70 per cent of that supply, the effect was to make the American consumer—principally the owners of automobiles—pay tribute to Great Britain and the British rubber companies.

Secretary Hoover called attention to the exorbitant price of rubber and recommended plans to defeat this predatory monopoly. With this he initiated a movement in the United States in line with the economic law that has struck a death blow at many another monopoly. Processes were perfected by which old rubber was reclaimed and regenerated, as in the so-called "rubber replant" at Mishawaka, Ind., and with such success that demand for new rubber was markedly curtailed.

Then American rubber manufacturers planted groves of rubber trees in tropical countries not under British rule. Harvey Firestone planted 1,000,000 acres in Liberia, others in Brazil, where production from wild rubber trees was also very largely increased. The guayule shrub, also a source of rubber "milk," has been extensively planted in Mexico, and the Dutch East Indies have greatly increased their output, doing much to help break the grip of the British monopoly.

New processes are being worked out to extract rubber from the hevea of Para rubber tree, and a mechanical process already has been applied to the product of the guayule bush, which grows wild in parts of Texas, and may be extended to California and Arizona.

Thus it is easy to see that not only has Mr. Hoover performed a great service to millions of users of rubber in the United States through his prevention of the British monopoly collecting extortionate prices for tires, but he has given promise of development of a mammoth new industry—the production of raw rubber.

That type of man in the White House will go a long way in maintaining the present sound economic status of the nation and increasing its material prosperity—and in this way increasing the prosperity of the individual.

What Others Say

TRADE OF GUNMEN

During recent years a new occupation has become popular among certain young men, that of gunmen. Formerly the desperadoes were to be found largely on the wild plains of the west. But now these plains have become civilized, and the desperadoes have migrated to the big cities, where they handle firearms as children do toy pistols, and commit the most villainous crimes with them. They value human life no more than that of a worm. All pity seems left out of their natures. Our civilization is a very defective thing, so long as it produces these vicious and dangerous creatures. We call our country superior to the old world, yet we produce far more of these miscreants than they do. We consider ourselves far superior to the nations of Asia, yet life is probably safer in China, Japan or India, than it is in our larger cities. Our people must wake up and end this intolerable state of affairs.—Newcastle (Ind.) Courier.

DEMOCRATIC COMPLICATIONS
Indiana's Democratic party leaders apparently believe that they have reconciled several inconsistencies thrust upon them by developments in the early stages of the

national campaign. They have not expressly repudiated the wet views of their candidate for president, but they have decided that as far as Indiana is concerned they will stand upon the Houston platform pledge of law enforcement. Gov. Smith agrees with them on that issue, but he has gone far beyond the platform in his stand for modifications of the dry law, and in fact, so organized the national campaign as to make himself the candidate for the wet. He is making a bid for a group of eastern states, dominated by city wet votes, to add to the solid south in the hope that he can gain an electoral vote total that will, with the aid of some border states and a western state or two, put him in reach of victory.—Indianapolis News.

MARNE ANNIVERSARY

Ten years ago today the German drive toward Paris had been definitely stopped by the smashing counter-offensive of Marshal Foch, in which, for the first time, American divisions were employed as essential parts of a major operation. The movement started on July 18, the exhausted divisions being relieved the morning of the 22nd. On the 30th the action was at its height, the Americans had carried all objectives; the German line of communications between the tip of the salient at Chateau Thierry and Soissons was cut; withdrawal from the dangerous position was necessary for the enemy's preservation. The Second Battle of the Marne was then nearing its end and was becoming the Aisne-Marne battle into which it developed. Its result forecast the end of the war. Never again did the Germans take the offensive. To the end on Nov. 11, Ludendorff was in retreat. The attack of the Americans on the exposed leg of the salient near Soissons was decisive. It ranks with the conclusive battles of history. There the tide of victory turned at last, from then on the result was never in doubt. The generalship of Foch saw the spot to attack. Against it he threw the Americans. The result justified his choice.—Pittsburgh Post-Gazette.

Editorial Quips

A Mexican torador has just been granted a pension of \$15,000 a year but there won't be any great rush of American bull-throaters to Mexico.—Uniontown Herald.

Hoover and Smith are busy considering their notification day speeches. From unusually reliable sources it is learned both will accept.—Miami Daily News and Metropolis.

Once in a while the world hears about a hi-jacker who has died in bed instead of being found that way at the wheel of an automobile after having been taken for a ride.—Detroit Free Press.

A dietitian says we should eat more raw carrots and fewer rare beefsteaks. A dietitian, like an efficiency expert should be killed painlessly if you can restrain yourself.—Louisville Times.

"Our Ears and How They Deceive Us," title of an address at a meeting devoted to the training of the deaf, may be of something more than professional interest in a year of campaign ballyhoo.—St. Louis Globe-Democrat.

Pilot Stultz showed that he is something of a philosopher, as well as a flier when he remarked that among birds the parrots which are the best talkers are also the poorest fliers.—Boston Transcript.

Twenty Years Ago

(Issue of July 24, 1908)

The household goods of E. O. Wilson, this city, were shipped Thursday to Elkins, W. Va., where the family will reside.

Columbus—The state dairy and food commissioner will have a curious exhibition at the state fair. It will be of flags tinted and colored from substances taken from adulterated food products collected by the department.

The Elks baseball fans met at the club rooms Thursday night and elected Rex Buggy manager and Eli Houghton captain of the team which will play a benefit game for the Home for Aged Women, with the Masons team some time next month.

Columbus—For the first time since he assumed the office of chief executive two years ago last June, Gov. Harris has found it necessary to take a rest.

A son has been born to Mr. and Mrs. Harry William, of Leetonia, formerly of Salem. Mr. William is a conductor on the Y. & O. R.

Damascus—Leonard Pearce and Ed Cadwallader carried off the first honors in the tennis tournament here, defeating Charles Bailey and Carl Hobson.

Work has been commenced on a fine home for Herbert H. Sharp, Highland ave. When finished it will be one of the most modern in the city.

Lisbon—The fourth class postmasters of this county met Thursday afternoon to organize. The purpose of the organization is betterment of the service in this county.

Elas Jenkins, of Youngstown, candidate for congressman from the 18th district on the Prohibition ticket, was here Thursday afternoon.

Canfield—Miss Florence Delfs, daughter of Mr. and Mrs. John Delfs, and J. Carl Zimmerman, of Greenford, were united in marriage Thursday evening at the bride's home. They will live in Greenford.

Mrs. Robert Campbell, Miss Laura Heacock and Mrs. W. B. Thomas went to Alliance Friday morning to witness the balloon ascension.

TREATING VICTIMS OF STRANGULATION

By Royal S. Copeland, M. D.
United States Senator from New York. Former Commissioner of Health, New York City.

I am asked frequently what should be done for a person overcome by smoke or suffering the effects of strangulation. In drowning, hanging and exposure to dense smoke, we have conditions in which lack of air produces loss of consciousness. The skin is purple, the veins stand out, the heart action grows weaker and weaker. There is gasping for breath and very soon the heart ends its efforts.

DR. COPELAND

But you must never jump at the conclusion that nothing can be done. Even though the pulse cannot be felt or the heart heard, there is always the hope that life can be saved. Suppose you are called upon to help care for a suffocating person, what are you to do?

Make sure there is no foreign substance in the throat. Pull the tongue forward and see that the nostrils are clear. Remove tight clothing, especially around the neck. While you are performing artificial respiration as in drowning, you must keep the victim warm by covering with blankets and surrounding with hot water bottles, hot bricks or hot sand bags. Some rectal injections of warm strong coffee will produce useful stimulation.

If the patient is a young child, the old fashioned method of mouth-to-mouth inflation may do good. Place a piece of course gauze over the victim's mouth and blow air into the lungs. Then expel it by pressure on the chest. This should be kept up 15 or 16 times per minute.

If a body is cut down after a hanging, the application of cold water to the head and neck may stimulate breathing. The same methods used in reviving a drowned person should be employed.

Asphyxiations from smoke are quite common in cities where fires are frequent. What the smoke will do depends to a great extent upon the material which is on fire.

For instance, burning rags, wet hay, paper, varnish and lumber make a smoke which is very irritating to endure. Tar and pitch are less disturbing. When the smoke is mixed with fumes of chemicals it is very damaging to human beings who are caught in it.

At first there are choking, dizziness, sickness at the stomach, and severe headaches. Coughing, vomiting and violent action of the heart are other symptoms. The eyes burn and run water. Then there is loss of consciousness.

Carry the victim to a safe place, loosen the clothing and collar and keep him warm. If necessary, use artificial respiration as for the relief of drowning.

Do not try to pour water or a stimulant down the throat of an unconscious person. It may cause choking and drowning.

After the breathing is restored, terrible headache is a symptom. Relieve the headache by applying an ice pack or cold water compresses to the forehead.

The cough and bronchitis, as well as the irritated eyes, will require appropriate treatment for a few days. The family doctor will be in charge now.

In poisoning from illuminating gas, almost the same procedures are demanded as for the treatment of drowning, or smoke asphyxiations. If an oxygen tank can be procured this gas should be used if there is any breathing. If not, artificial respiration should be resorted to as in drowning.

The pulmotor and lung motor are kept within reach in the cities. They

The Stars Say—

For Wednesday, July 25.
By GENEVIEVE KEMBLE.

A VERY lively and interesting day as far as business activities are concerned is the forecast made from the ruling planetary configurations. New contracts and ventures may flourish, but probably not without friction or disagreements of a personal nature. Also, social, domestic and affectional relations may feel the force of an unfriendly Venus and Jupiter, both by luna and in mutual aspect.

Those whose birthday it is are promised a lively and important year in business or professional activities, but other phases and affiliations may be visited with friction, misunderstandings and loss of property or prestige. Guard against deception and personal inharmonies. A child born on this day should be versatile and lively, but may have the personal relations involved in inharmonious. It may incline to prodigality or squandering its substance.

Ever in the strife of your own thoughts obey the nobler instinct.—Emerson.

TAKE A TIP!

There's always plenty of parking space at Roosevelt and Howard Street.

By the way, Tomlinson's Grocery is there, ready to serve you!

Isn't it exasperating to drive all over town and then have to walk a mile for your food stuffs?

DAMASCUS

Mrs. Homer W. Jackson of Zephyrhills, Fla., who is enroute to her summer home in Algonquin Park, Canada, spent a few days with her sister, Mrs. Mary Carr-Curtis and brother Albert Carr.

Mrs. Kathryn Shannon-Hamill, former art director and associate on the faculty of Mt. Union college with Mrs. Mary Carr-Curtis is spending several weeks visiting Mrs. Carr. She has a collection of 50 water color subjects with her.

The annual picnic of the Foreign Missionary societies of Salem and Damascus Methodist churches will be held with Mrs. Mary Carr-Curtis, Damascus-Salem rd., August 2. Several noted speakers will be present. The regular meeting of the Foreign Missionary society of the M. E. church will meet at the church Friday. There will be election of officers and opening of mite boxes at this meeting.

Rev. I. L. Kinsey was called to Mount Pleasant to conduct a funeral Sunday.

Mr. and Mrs. Irvin Cubine of Lexington, Va., are visiting their parents, Mr. and Mrs. J. H. Cameron. Mrs. E. M. Steer and Miss Abbie

Steer visited at the home of Wilson Steer of Winona Thursday and Friday.

Mr. and Mrs. R. B. Cattell of Boston, Mass., visited Mr. and Mrs. I. L. Kinsey recently and Miss Lydia Cattell accompanied them to Smithfield Thursday.

Mr. and Mrs. Murray Smith of Salem visited Mr. and Mrs. E. M. Steer Sunday.

Arthur Pyroglie of near Georgetown had four cows killed by lightning Friday.

The Wee-Sutch-ee Sewing club and friends held a party at the home of Hazel Jackson Friday evening with 52 present. Games and a social time were enjoyed and a lunch served by the committee. A regular meeting will be held with the leader, Miss Arwilda Denny Thursday afternoon.

Wilson Moncrief visited his brother Charles Moncrief Sunday in an East Liverpool hospital where he was taken Saturday evening following a serious injury in an automobile accident.

Miss Charlotte Stanley assisted by Miss Inez Miles entertained the Helping Hand S. S. class Saturday afternoon. Sixteen members were present. Bible texts of birds of the

Bible were given and a social time enjoyed. A nice lunch was served.

Miss Inez Miles, who has been teaching at University Park near Okaloosa, Iowa, is spending the summer with her parents, Mr. and Mrs. Carrel Miles.

Mrs. Nell Miller of Salem, formerly Miss Elma Miles, who had an operation at the Salem City hospital, has been removed to her home.

Mrs. Bert Shreve of Whittier, Calif., who underwent an operation at the Alliance City hospital, was removed to the home of Mrs. Clara Shreve, Alliance, Monday afternoon.

Mrs. I. L. Kinsey left Monday morning for Norwalk where she will visit her daughter, Mrs. Harold A. Smith and family.

Mr. and Mrs. Donald Isenour are camping at Placencia lake, George and Harriet Isenour of Salem are with them.

Mrs. Margaret Chambers and children accompanied Mr. and Mrs. Fred Chambers of Alliance to Mt. Pleasant Sunday where they visited her parents, Mr. and Mrs. Oscar Patterson.

Rev. Chester Stanley of Byhalia is spending a few days with his parents, Mr. and Mrs. C. E. Stanley, Irving Hoopes of Valley rd. is ill.

The Magazine club will meet Wednesday with Mrs. Walter Ellison.

Dr. J. M. Ward and Misses Bertha and Minnie Ward of Oil City, Pa., visited Miss Jessie Powell Sunday, and she returned home with them to visit at Oil City, Franklin, Bethlehem, Pa.

Franc Stabilization

Makes Nobles Work

Paris, July 21.—Stabilization of the franc has set French nobility to work. Information bureau, recruiting agencies and employment offices in Paris report the visits of innumerable countesses, viscountesses and other noble offspring in search of means to increase their low income. Large numbers of them are crowding their families into a few rooms and renting the rest of their chateaux and palaces.

Before Poincare actually brought about the act of stabilizing the wavering franc, they held out some hope of recovering their lost fortunes. Today they can only realize the truth.

TRY THE SALEM NEWS

An Event Women appreciate---Great Reductions on Merchandise In All Sections of "THE BIG STORE" During

July Clearance Sales

A NOTE TO HOUSEWIVES

Housewives all know that July is the month of clearance at well-merchandised stores; that merchandise then is marked at a price low enough to sell it without effort, so that the space may be used for the incoming fall merchandise. Yet many housewives do not know about the fresh, lately received, stylish merchandise found in all sections, clearance-priced.

A WORD ABOUT QUALITY

Items for clearance, reduced so we make way for our new fall shipments, are all of the standard quality recognized as serviceable and dependable. Often items are counter-soiled; but chiefly, they are odd lots of fresh merchandise, in irregular assortments and sizes. In every instance, now as always, the quality is superior to merchandise at the same price elsewhere.

A PROOF OF SAVINGS

Throughout the store are just the items you have been wanting, repriced now when there are still two more months of summer. Savings on one item enable the purchase of more items; hence a more attractive and better equipped home and family; and a greater service for Salem's greatest department store. These items advertised are proof of savings.

ART OF LIVING BEING CHANGED BY SCIENTISTS

California Dean Thinks World Must Use Dis- coveries Right Way

San Francisco, July 24.—A world of Robots, ministered to by the superfluous products of science, is one phase of a forecast by Dean Baldwin M. Woods of the University of California.

For science, that tracks the sly molecule to its far and makes electricity cut strange, domesticated dices is changing the art of living, Dean Woods says. Whether that change proves damaging or not depends on the individual in his opinion.

If scientific discoveries are well used the world will benefit, he says, but if they are not, he pictures a picture of helplessly bedeviled humans in the grip of mechanical routine.

"Science has brought us three great things in the last century," Dean Woods points out. "These are transportation, communication and organization."

Conquering Disease

"In the last organization, lies the danger for we are close to being organized beyond our ability to manage."

Science has also aided in freedom from disease, so that in the last half century 15 years have been added to the span of human life.

"Every person is affected somehow by science. Possibly we are faced with domination of things—until man becomes a mere Robot."

"Even now, perhaps we are, bewildered by the complexity of things which we do not know what we want to do—whether to listen to the radio or read, or to take a picture or a play, ride in an automobile or an airplane, go to a concert or to church, dine or go to a dance."

"However, man can be more efficient through the use of machinery if he so desires. What he accomplished with a spade in 500 years, or with a team in four years, he can now do in 36 hours through science."

Dean Woods also placed a happier interpretation on the possibilities of the scientific age. He points out the opportunities offered as the salvation of humanity from the threat of mechanical domination.

Growth of Science

"Possibly, and better still, man may be inspired to put art into living. The hod-carrier may become a mason, and then an architect; the laborer an artisan and then an artist. Man's labor may develop into art and then into fine art."

"Perhaps, finally, science may cause us to grow throughout our lives so that we may continue to develop. The greatest vocations, in which we reach the top, last in life."

Averaging the scale of human endeavor, Dean Woods points out that while a prize fighter reaches his zenith at about the age of 30, the banker reaches his at 60; the statesman at 70 and such men as Henri Faber, the great naturalist, develop until they are 90 years old.

The art of living has not gained in proportion to the development of science, concludes Dean Woods. But he feels that the human reactions normally are good. He sets no reason for unwavering pessimism in the outlook of the present day.

San Francisco, July 24.—A world of Robots, ministered to by the superfluous products of science, is one phase of a forecast by Dean Baldwin M. Woods of the University of California.

For science, that tracks the sly molecule to its far and makes electricity cut strange, domesticated dices is changing the art of living, Dean Woods says. Whether that change proves damaging or not depends on the individual in his opinion.

"Science has brought us three great things in the last century," Dean Woods points out. "These are transportation, communication and organization."

Traffic Vibrations Menacing Buildings Order London Survey

London, July 24.—Experts are alarmed at the peril caused by traffic vibration to some of London's famous buildings and a thorough survey of the central area has been ordered.

The Nelson column and the National Gallery in Trafalgar Square, St. Paul's Cathedral, Westminster Abbey and the law courts are typical of the notable structures which are threatened.

Delicate instruments, which will register the slightest quiver due to the vibration caused by passing traffic will be installed in buildings and in the streets.

The question of traffic vibration will come before the science committee of the Royal Institute of British Architects shortly, says H. V. Lanchester, a prominent architect and a vice president of the institute.

"The situation is undoubtedly serious. It has been brought to our notice several times, and the Central Hall accident, when a boy was killed and seven other people injured by the fall of a ceiling, has brought matters to a head."

Strangely enough, it is not the old buildings which cause us worry, but those of new and modern design.

"Old buildings, however constructed, absorb most of the traffic vibration without any effect on the structure. It is the modern building of steel and concrete—a cast iron—of fair—that is such a dangerous conductor of vibration."

Officials from the office of works have had the Nelson Column under observation for some time. The gyration vibration from the square and an undercurrent are believed to be causing it to vibrate.

The monument was designed originally to allow a way of some pressure. It is thought that the street and underground traffic, an official at the Ministry of Health said.

"It is almost certain that some steps will have to be taken, both by the London council and the Ministry of Health."

Novelist Called Her Verse Trite

Virginia Frew (right) is believed to have committed suicide because Maxwell Bodenheim (left) called her verses trite. Her body was found in the Hudson river at New York. In the center is a photograph of Bodenheim's estranged wife and her baby. They live in a Paris suburb.

America's Monte Carlo Is At Agua Caliente

Agua Caliente, Mexico, July 24.—America's long awaited Monte Carlo is in operation after a formal opening that hung up a new record for luxurious entertainment and lavish expenditure of money.

More than \$500,000 was said to have passed across the gaming tables from 5 o'clock Saturday night to 5 o'clock Sunday night on the opening week-end. Practically all of this was American money. How much in winnings the Americans took away is problematic.

Agua Caliente is four miles below the American border, and two miles beyond Tijuana, Mexico, which up to now has been the rendezvous for thousands of Americans who daily cross the border from San Diego to quench their thirst for alcoholic beverages and court the alluring siren of chance.

There had been talk for years of a Monte Carlo a few miles below the border where the more prosperous and rich Americans could congregate, but nothing had come of it. The announcement hardly a few weeks ago that a new hotel and casino was almost completed at Agua Caliente Hot Springs was believed to mean that hotel accommodations would be made available for persons taking the "waters."

Gambling Palaces

That it actually was a Monte Carlo soon became evident. The hotel and casino cost \$1,250,000. No gaming place in Europe, Monte Carlo, Dieppe, or the famed Deauville surpasses the Agua Caliente resort in beauty of architectural design and furnishings.

Hitherto rich and well dressed Americans have had to rub elbows with the poorer and more boisterous Americans in the Tijuana bars

San Francisco, July 24.—A world of Robots, ministered to by the superfluous products of science, is one phase of a forecast by Dean Baldwin M. Woods of the University of California.

LEETONIA

Mr. and Mrs. Leland Fenstermaker and children, Virginia and Billie of Covington, Ky., are enjoying a vacation at the homes of their parents, Mr. and Mrs. William Fenstermaker and Mr. and Mrs. S. R. Slagle.

Mr. and Mrs. George Myers and daughter, Miss Thressa Myers and H. E. Floding of Leetonia, Mr. and Mrs. Russell Myers of Salem, Mr. and Mrs. Emil Gishan of Youngstown motored to New Philadelphia on Sunday morning and visited for the day in the home of Mr. and Mrs. George Myers son, Harry Myers and family.

Miss Carrie Truesdale very pleasantly entertained the members of the Sewing Circle of the Presbyterian church on Friday evening at her home on Chestnut st. The evening was spent in needlework at a late hour refreshments were served. Robert Cushing, Sr., of Clayville, Pa., motored here Friday evening and visited with his family until Sunday evening. Miss Ruth returned with her father Sunday evening for a few weeks visit.

J. V. Freeman and his father were business callers in East Liverpool on Saturday.

James Reynolds of Toronto is visiting in the home of his brother P. V. Reynolds.

Mrs. John Bowman, Mr. and Mrs. Ezra Bowman of Lewistown were guests of the former cousin, Mrs. P. V. Reynolds last week.

Miss Victoria Chuck and her little sister Dorothy, of West Point, who were visiting in East Palestine with their aunt, Mrs. Mary Bork, were Leetonia visitors on Saturday.

Harry Wolfson was a Lisbon visitor on Saturday.

Dr. and Mrs. I. A. Wygant and daughter Barbara, of New Castle, Pa., were over the week end visitors in the home of Mrs. Wygant's mother, Mrs. Lena Langdon.

Cleveland — Burglary means absolutely nothing to the Superior branch of the Citizens' Saving association. After two holdups, a tear gas attack was tried out last week with a view to preventing repetition. Police responded recently to the burglar alarm accidentally set off, but later two armed robbers locked the manager and window washer in the vault and escaped with \$2,059.

San Francisco, July 24.—A world of Robots, ministered to by the superfluous products of science, is one phase of a forecast by Dean Baldwin M. Woods of the University of California.

Youngest in Olympics

England takes the palm for having the youngest competitor in the Olympics this year. Miss Margery Hinton, aged 12, has been chosen as a member of England's swimming team in the 75 metre breast stroke. It is interesting to note that the next youngest is Dorothy Poynton of the United States swimming team.

\$369,000 Road Bonds Of County Approved

The Continental National company of Chicago, Ill., has approved the purchase of \$369,000 road bonds of Columbiana county.

The purchase is a part of the \$950,000 road bonds authorized three years ago.

The bonds are now being printed, and will be delivered to the county commissioners during the current week for signatures before delivery to the purchasers.

Funds from the sale of these bonds are to be used for the payment of the county share on the construction of three bridges now being built, and also for the county share for the surfacing of several roads now nearing completion.

A magnificent bar is in the background of the casino. Drinks are 50 cents each, with as many women as men with their feet on the rail. Champagne is \$5.00 for the pint bottle and \$10.00 for the quart, with the same prices prevailing in the dining room. This is in contrast to the \$8.00 a pint and \$15.00 a quart charged at Tijuana.

A golf course is being laid out at Agua Caliente, a swimming pool is to be built and whippet racing will soon commence on an elaborate track already built.

Agua Caliente is owned and operated by Baron Long, owner of the U. S. Grant Hotel at San Diego, and Wirt G. Bowman, long prominent in gaming and saloon interests in the border cities.

Agua Caliente is only a spot in the rolling hills of Mexico but it is an oasis for thirsty Americans and a gold mine for gamblers.

GRETA USED TO SHAVE WAITER

Cafe Employee In Paris Knew Her When She Had To Work

Paris, July 24.—"Greta Garbo used to shave me." With this crack, John Ringstrom, popular headwaiter at a just as popular cafe, is the latest entrant of the "I used to know her when"—contest.

This entry has, moreover, all the earmarks of the truth. When Greta was a wee lassie of fourteen, young and struggling, her parents made her go to work in a Stockholm barber shop as a "soap girl," according to John. Her job was to lather the clients. That done to perfection, the journeyman barber stepped in and finished the job. This mode of shaving in easy stages is peculiar to Swedish tonsorial parlors.

Sometimes the journeyman barber would, however, imbibe a little bit too much Swedish punch, incapacitating himself for the surgical end of the shaving operation. At such times Greta had to "sub", and "sub" she did to the satisfaction of everybody.

"She was a great little barber," testifies John the headwaiter.

A dash of orange, a splash of red—add spinach green and mix with a few ribbons, and you have what the well-dressed man should wear!

His tailor may be on Fifth Avenue or Bond Street but he is not ultra-chic unless he has something designed after one of the models in the Paris Men's Fashion Salon.

The salon committee called on artists, instead of suit cutters, for the display. Yves Guden is responsible for this one.

Brown-grey coat with blue sleeves; white vest dotted with blue stars, blue trousers.

Fabiano visualizes a black tuxedo with slit sleeves and trousers, the slits tied with ribbons. A flowing red necktie makes up the ensemble.

A spinach green combination coat-cape comes from the brush of Pierre de Bray.

Bussy would have men's formal evening dress in bright red, white leather hip boots being worn instead of pumps.

Monsieur Lucien Villard is considered the most obliging husband in France.

When he and his wife decided to separate because of domestic differences neither told the neighbors. M. Villard just quietly disappeared.

Later, he read that Mme. Villard had been arrested for trying to put him on official record as a dead man. She attempted this, said police by obtaining the original death act of her father-in-law and replacing the deceased's name with that of her husband.

Annoyed, M. Villard went to the police station and asked to see his wife.

"Why did you try to make me dead?" he demanded.

"So I could marry a wealthy friend," she replied.

"Oh, if that's all I'll be glad to get a divorce," said M. Villard.

Slicker Tells Her Choice

At last the college slicker has taken on a political aspect. Miss Carroll Wells, a summer term co-ed at the U. of Kansas in Lawrence, is a Republican and tells the world about it by means of stickers on the back of her slicker.

SOCIETY

Betsy Ross Club
The social to be given Tuesday evening by the Betsy Ross club has been postponed but the regular meeting will be held at 8 p. m. Important business will be brought up at this meeting and all members are requested to be present. Arrangements will be made to attend the province meeting at Alliance Aug. 14. Visitors are expected from East Liverpool, Lisbon, Columbiana and Leetonia and a lunch will be served.

After the business session the insurance board will meet.
Initiation will be the main feature of a meeting in two weeks.

Birthday Surprise
To celebrate her birthday anniversary, a group of friends of Mrs. C. C. Ressler carried out a surprise for her Monday evening at her home, Cleveland ave.

The party was arranged by her daughters, Misses Elvira and Mary Frances Ressler.

The evening was enjoyed informally with games, and a lunch was served. The honoree received some gifts.

Ministers' Picnic
Rev. and Mrs. C. E. Haworth and daughter, Henrietta, and H. P. Litty, attended a picnic of the ministers of Damascus quarterly meeting of Gurney Friends held Tuesday at Westville lake.

The quarterly meeting is composed of the churches at Salem, Alliance, Beloit, Damascus, Winona and East Goshen.

Circle 5
Members of Circle 5 of the Methodist church will meet at 2:30 p. m. Wednesday at the home of Mrs. Mary Pine, 129 Lincoln ave. This will be an important meeting and all members are requested to be present.

Monday Afternoon Club
Mrs. W. P. Carpenter entertained associates of the Monday Afternoon club at a luncheon yesterday at her home, Lincoln ave. Mrs. B. S. Ambler, of Washington, was an out of town guest.

Attend Reunion
Mr. and Mrs. Harry Parsons and daughter, Miss Phoebe Ellen Parsons, Ellsworth ave., attended the reunion of the Buza and Sweet families Saturday at New Castle, Pa.

P. M. Auxiliary Picnic
Members of the Ladies' Auxiliary of the Patriarchal Militant and their families will hold a picnic supper at 6:30 p. m. Wednesday, Aug. 1, at Centennial park.

Little Reunion
The Little family will hold its annual reunion Sunday, Aug. 5, at Centennial park.

Mrs. Joseph Birkhimer returned Monday evening from a week's visit at Rineberg, Pa., where she visited Mr. and Mrs. W. H. Utterback. She spent the week end at New Castle, Pa., with Mr. and Mrs. Alex Miles.

Mrs. George Capel, Mr. and Mrs. Henry Fletcher and Mr. and Mrs. L. M. Cullenberger returned Monday night from a motor trip to Toronto, Canada, Detroit and other points of interest.

Mrs. Rollin Finley, Mrs. John Finley, Mrs. P. J. Redington and Miss Agnes Donnelly left Sunday for a two weeks' motor trip to Washington, Philadelphia and Atlantic City.

Miss Harriet Mervin of Harcourt Place school, Gambier, O., spent the week end at the home of Miss Ruth King, Ellsworth ave.

Miss Phoebe Ellen Parsons, Ellsworth ave., who has been spending a few days in Pittsburgh will return home Tuesday evening.

MIKE DE ANGELO
ARRESTED AGAIN

Federal Agents Find Six Pints of Liquor In His Fruit Store

Columbus, July 24.—Mike De Angelo, alleged bootleg king here, now free on \$10,000 bond awaiting sentence on charges of being implicated in a huge hijacking scheme for which two state prohibition agents were sent to the Atlanta federal penitentiary today was again entangled in the clutches of federal authorities.

De Angelo was arrested yesterday by federal authorities when they found six pints of liquor in his fruit store. The man was immediately arraigned before U. S. Commissioner Joseph Horner and after pleading not guilty released under \$3,000 bond.

The alleged "bootleg king" in pleading his innocence said that he was a victim of circumstances and that the liquor did not belong to him but to his brother-in-law.

In declining ownership of the liquor was said to have told the dry officers "I never fooled around with small amount like that."

Two other local persons and a man from Detroit were arrested as the result of the raid by federal authorities yesterday. They were Wustli Consentino, Joseph Albanese, both of Columbus and Dan R. Clark of Detroit. When arraigned all pleaded not guilty and bond of \$3,000 was fixed. Consentino and Albanese furnished bond, but Clark was remanded to jail in default. Hearing date for all of the men was set as Aug. 31.

De Angelo is to appear before federal court Sept. 27 to be sentenced for his alleged part in a gigantic hijacking scheme here on the morning of March 30 when a truck load of beer and liquor was said to have been confiscated by state officers and turned over to De Angelo.

COAST STATES

(Continued From Page One)

for the Empire state upon a still diminishing Smith popularity at home.

Following his first meeting with eastern managers to map major campaign policies, Work returned to Washington today to confer with women committee members from the same states on their part in the Hoover drive. For the first time since women were given place on the national committee, they will have their own independent campaign organization this year.

Raskob Kept Busy
While Work continued to whip his campaign machine into shape at the capital, Chairman John J. Raskob of the Democratic National committee was busy with the actual execution of plans submitted to the first meeting of the Democratic National advisory committee.

While Work and Raskob met with their committees in closed session, the New York State Democratic committee assembled at the National Democratic club, midway between the two headquarters hotels, to select Rochester for the state convention, October 1 and 2, which is to name the favored candidates whose names will go under Smith's on the ballot.

Moses Asks For Light
The long smoldering row within the Republican organization over the leadership of the eastern campaign was heatedly discussed by the state leaders before it was finally determined that Work himself should assume control.

Senator George H. Moses of New Hampshire, who was made "director" of the service of plan and policy, three weeks ago, asked Work pointedly at one stage for a more satisfactory definition of his responsibilities. Reports that Moses was ready to withdraw from the campaign following the Hoover notification August 11, were denied in all quarters.

The whole diplomatic corps accepted the invitation of President Coolidge to be present at Pauces, Delcres where a place has been prepared for the body amidst the graves of the republic's heroes.

Police Hunt For Morones
Mexico, City, July 24.—Luis N. Morones, who was the strongest political opponent of the late General Alvaro Obregon and resigned as secretary of industry, commerce and labor following charges by the agrarians that he and other labor party leaders were the "intellectual authors" of the assassination of the president-elect, was still being sought by the police today.

Morones, the police believe, is hiding among friends in this city. The police expect the early arrest of Manuel Trejo, said to be the person who gave Jose De Leon Toral the pistol with which he shot General Obregon. It was said here.

Toral, according to Chief of Police General Antonio Rios Zertuche, has made a "complete confession," the details of which have not been revealed. Zertuche also revealed that Catholic interests were aiding the police in getting at the bottom of the assassination.

Would Oust Labor Members
Mexico City, July 24.—With the Laborite members of the Calles administration ousted through enforced resignations the national agrarian party, the backbone of the candidacy of the late President-elect Alvaro Obregon, today demanded the complete elimination of all members of the labor group from the national congress and senate.

Celestino Gascuant, formerly director of the national munitions factories, who quit his post when Minister of Labor Luis Morones resigned, was reported today to have fled from the capital disguised as a chauffeur.

Leaders of the agrarian party accuse the labor leaders of responsibility for the assassination of Gen. Obregon. They demand that these leaders be arrested and punished.

CATHOLICS
(Continued From Page One)
urban membership having been 14-809,142 in 1926 as compared to a rural membership of 2,795,708. There were, however, 11,070 rural churches as compared to 7,899 in the cities.

New York reported the largest church valuation with \$177,022,018. The census bureau said that Sunday school of a membership of 1,201,280 were reported by 8,238 churches. In addition 1,156 churches reported parochial schools with 48,681 officers and teachers and 1,720,504 students.

Previous census figures show the membership of the leading Protestant churches, excepting the southern Baptist convention, not yet announced as follows:
Methodist Episcopal, 4,080,777;
Presbyterian, 3,967,721;
Episcopal, 1,858,626;
Southern Baptist, 1,858,626;
Disciples of Christ, 1,377,593;
Congregational, 901,846.
The Negro Baptist church was announced today as having 3,196,823 members. There were 21,071 churches, and the membership was concentrated chiefly in Georgia, Virginia, North and South Carolina, Alabama, Mississippi, Arkansas, Texas and Louisiana.

Cincinnati—Trained eight years by government authorities, Chelcie Dill, 27, of Hamilton, has been arrested for robbery of \$120 and a watch in Van Couver barracks 12, 1920.

Private Is Stricken
At Camp; Rushed By
Plane to Cleveland

Cleveland, July 24.—Private Wallace Moorehouse of Camp Perry, was stricken and ordered to Cleveland, Ohio, today after an operation for acute appendicitis, which followed a hurried flight from Camp Perry Monday.

Immediately after Moorehouse was stricken and ordered to Cleveland, Lieut. Clarence Barnhill brought him here in a plane while another plane piloted by Lieut. E. K. Ebel, carried Capt. Herbert Wright, who performed the operation.

NEED OF CLEAN
COAL STRESSED

Good Product Will Mean Old Market Again Is View of Operator

St. Clairsville, July 24.—The mounting optimistic sentiment which pervades workings of Ohio coal operators was reflected today in a statement issued by R. L. Ireland, general manager of the Wheeling & Lake Erie Coal Mining company, in which he stated that due to a competitive wage scale and non-discriminatory freight rates, "Ohio coal mines are now in a position to regain their markets, lost years ago to non-union fields of West Virginia and Kentucky."

Ireland warned operators, however, that whether Ohio is able to hold the market, "depends entirely on its ability to produce clean coal," and pointed out that if slate is permitted to go to purchasers, re-orders "will not be forthcoming" and Ohio mines, now in operation, will be forced to shut down.

Ireland's company has closed its West Virginia mines because it is now able to produce coal as cheaply in Ohio as in that state, he said.

Mines resuming operations in this field will have new equipment installed at the tipplers, it is said, in order to assure the shipment of clean coal due to the fact that Ohio operators are determined to wage a bitter fight to retain the coal market returned to them by the change of railroad carrying charges on coal to the lakes and the inauguration of operations on an open shop basis in many workings.

Film Men, Arrested
Under Blue Law, To
Close All Business

St. Clairsville, July 24.—Prospects for an early "show down" in the impending blue law battle at Martins Ferry loomed today following the action of the theater owners in seeking information from Prosecutor P. V. Waddell relative to the filing of affidavits against all business places which keep open on Sunday.

The theater men's action followed the arrest of two theater managers and four moving picture machine operators at Martins Ferry Sunday which resulted in their release on \$200 bond each yesterday to await grand jury action.

Prosecutor Waddell told the theater men that, in his opinion, no law exists which permits lunch rooms, hotels, restaurants, or filling stations to keep open on Sunday and at the same time forbids theaters from doing the same and present indications point to the theater owners contesting bitterly for the closing of all other business places on Sunday in the event they are unsuccessful in their fight to bring about Sunday "movies."

WAR BRIDE HAS
ACCIDENT ALIBI

Says Involuntary Wound Followed Face Slap; Hearing July 31

Cleveland, July 24. While revealing for the first time, details of the stabbing at their Cleveland Heights home which resulted in the death of her husband July 19, last, Mrs. Jeanne Oatman, former French "war bride" today indicated that she would maintain, through her attorney, that the stabbing was accidental.

"After a quarrel with Harry (Harry Oatman, the husband) I was in the kitchen slicing tomatoes when Harry came over to me and struck me on the left side of my face from behind," Mrs. Oatman declared. "I stepped backward and threw up my hands." Here Mrs. Oatman indicated how the knife she held in her right hand entered her husband's chest.

"After he had been stabbed," she continued, "he pulled the knife over and held his hand over the wound when police came. We told them there had been no fight; that we were reconciled. After the police left I wanted Harry to get a doctor but he said the cut was slight. Later he visited a doctor's office and had two stitches taken in the wound. The next morning, Harry said he didn't feel well and after several telephone calls I got a doctor to take him to a hospital. He died a few hours later."

According to her attorney, George W. Spooner, of Cleveland, the defense will contend that Mrs. Oatman's involuntary reaction to the blow which she says her husband delivered, was sufficient to plunge the knife through Oatman's chest bone into the lungs.

The defense also will maintain that inadequate medical attention by a physician was a contributing factor in Oatman's death, Spooner indicated.

STANFORD

(Continued From Page One)

was invited by the nominee to arrange with him details of the "welcome home" reception to be staged in San Francisco Friday.

Mrs. Scranton will tell Hoover that he is a certain victor in the states of Washington and Oregon, as well as in her own state of Pennsylvania. The Keystone national committeewoman visited the northwest with her husband and three daughters and came away convinced that Hoover will win a great victory along the Pacific coast.

Senator Hiram W. Johnson, of California, visited the nominee yesterday afternoon and pledged his support. He ended an eight-year feud with Hoover by breaking bread at the nominee's table. He predicted Hoover would carry California, but did not name any figures.

Johnson Mum On Issues
"Did you offer him your services in the campaign?" Johnson was asked.

"I am for the Republican candidate for president," Johnson retorted, "because I am a Republican."

candidate for the senate." The Californian declined to discuss issues, declaring the issues would be enunciated by Hoover in his Aug. 11 speech. He announced, however, that he would continue the fight for the Boulder dam bill and that he would open fire on the so-called "power trust" in a series of speeches to be made in his own senatorial campaign.

"I am going to fight the Boulder dam to the end," said Johnson. "Next week I will speak with fluency and fervor in regard to the power trust. I expect to open my campaign in Southern California."

Governor Urges All
To Help End Strike

Columbus, July 24.—Coal operators and union mine workers today were urged to get together Thursday, at the proposed wage scale negotiation conference here, by Gov. Donahey, who declared "there is now the best chance for an agreement since the strike tied up Ohio mines some 15 months ago."

"Any kind of an agreement by which the mines could be operated by union labor would be better than the economic tragedy now occurring in Ohio mining districts," the governor added.

Ohio operators have been invited to meet with officials of United Mine workers, District No. 6, in Columbus Thursday. The operators, through their president, have said they will not attend the proposed wage negotiation meeting.

One Book May Mean a Library

MANY people say, "I would like to own such and such books, if I could only afford them." Others say "Some day I hope to have the means to build up a real library."

We offer to book lovers one book that may mean eventually an entire library. We refer to the savings passbook. If you will use one now and put aside only a small amount regularly, the day will come when in that one book you will find sufficient means to provide yourself with all the books you really want.

Markets

PRICES HIGHER
New York, July 24.—Stock prices opened fractionally higher today. The market was active, U. S. steel advanced 1/8 to 138 1/2. American Lumber advanced 1/8 to 110 1/2. General Electric up 1/4 to 148 1/2. Consolidated Gas of New York 1/4 to 144 1/2. Westinghouse Electric up 1/4 to 94 1/2. General Motors up 1/4 to 187 1/2. Freeport Texas up 2 1/2 to 18 1/2. Atlantic Refining up 1/4 to 60 1/2. New York Central up 1/4 to 81 1/2. Hudson Motor up 1/4 to 31 1/2. U. S. Rubber up 1/4 to 67 1/2. and C. & O. Copper up 1/4 to 24 1/2. Mont. Ward shipped back 1/2 to 17 1/2.

Price movements in the stock market during the forenoon were irregular due to active profit-taking which followed Monday's advance. Opening prices were generally higher and the market declined 2 1/2 to 170 1/2. The market was based on the belief that the recent upswing in this stock was the result of a fast pace. Similar conditions caused a dip in Kroger Grocery.

U. S. Steel advanced 1 1/2 during the forenoon to 138 1/2. Warner Brothers Pictures moved up 3/4 to 62 and corn products gained 1/4 to 71 1/2. Declines were generally light. Other industrial values were ranging from 1/4 to 1/8. Sears Roebuck 1/4 to 117 1/2. Wright Aero 1/4 to 172 1/2. American Tel. and Tel. 1/4 to 172 1/2. and Victor Talking Machine 1/4 to 62. American Can, however, jumped two points to 85 1/2.

Most were inactive and irregular. General Motors slumped 1 1/2 to 186 1/2. Packard eased off 1/4 to 72 1/2. and Studebaker gained 1/4 to 68 1/2. Rails were active and stronger. Baltimore and Ohio advanced 1/4 to 108 1/2. Erie 1/4 to 52 1/2. Southern Pacific 1/4 to 118 1/2. New York Central 1/4 to 100 1/2. and Atchafalaya 1/4 to 100 1/2. A two point gain was recorded by Keith-Albee-Orpheum Amusement stock which sold at 21.

Call money 5 1/2 per cent.

WORK PRAISED BY COOLIDGE

Superior, Wis. July 24.—Praising his administration of the office highly, President Coolidge today formally accepted the resignation of Dr. Hubert Work as secretary of interior to take effect upon the qualification of his successor, Roy O. West, of Chicago, which will take place tomorrow.

"I wish to thank you for the loyal service you have rendered to the country during the time which you have been at the head of the important department of interior," wrote the president. "Your management of that great office has been exceedingly satisfactory and I am sure you will always view it with a good deal of satisfaction to yourself in the knowledge that it was a real contribution to the administration of public affairs."

Aged Man Slain As Gangland Guns Bark

Chicago, July 24.—Roaring guns of "Little Italy" flashed fire again today and killed Joseph Cateranatta, 60, a block from notorious "death corner."

The policemen stationed a block away to trap a murderer heard the shots and turned to see the body of the victim sprawled in the street with two smoking guns by his side.

July 24th, 1928

Dear Friends—
Another lady made happy! She came in yesterday with a dress that she had worn in the rain. It looked like it had been through Johnstown Flood and she didn't see much prospect of saving it. But the boss did. And I wish you could have seen it this morning when it was ready for delivery.

Looked like a brand new dress. And she certainly was pleased.
"That's the fun of being in the cleaning business," says the boss. "I like to please 'em."

QUARANTINE FOR CORN BORER SET

Line in Ohio Two Counties
South of That In 1927
Truax Announces

Corn borer quarantine for 1928 in Ohio was under way today, extending through two counties south, on an average, of where the line was drawn in 1927. It was announced here by Charles V. Truax, director of the Ohio department of agriculture, who is co-operating with the U. S. department of agriculture.

The quarantine line this year, according to Truax, is from 10 to 25 miles south of where the borer was reported last year, and not almost upon the edge of borer-infested territory as has been the case in the past.

Starting at the northern edge of Darke county, the line of quarantine, extends across Darke county, south on the edge of Shelby into Miami county; southeast across Miami into Clarke; south by east into Madison; south on the Madison county line to Fayette county; due east on the border of Madison and Fayette counties to Pickaway and Franklin county dividing line; across Fairfield county into Perry county on a northerly trend to the intersection of Perry, Muskingum and Licking counties; north between Licking and Muskingum counties to Coshocton county; along the Coshocton-Muskingum county lines to Guernsey and Tuscarawas counties south across Harrison county to Belmont county, and to the south through Belmont county to the Ohio river.

This year's quarantine line makes 58 of Ohio's 88 counties under quarantine. But seven counties were infected, Truax says, when the borer was first discovered in Ohio in 1921 and since that time the European pest has been increasing its hold on the state at the rate of between 25 and 50 miles each year, coming south through the heart of the state at the most rapid pace.

ELEVEN NAMED IN LAW PROBE

Akron, July 24.—Eleven attorneys, seven from Cleveland and Youngstown and four of Akron, have been named for solicitation of suits in a journal entry presented in common pleas court here.

The document among other stipulations, requests perpetual injunctions to prevent the men named from soliciting business in future. Dates are set in the entry for the attorneys and their clients to show cause why new counsel should not be employed in the specific suits and why lawyers should not drop them without compensation.

Included in the list named were M. A. Glick and Leon J. Knight, Youngstown; F. W. Waraday, Cleveland; Osborne, Phillips and Anderson and J. J. Tetlow of Cleveland and Youngstown.

Find Body of Man In Rocks Near Lane

Chardon, July 24.—Authorities here today were trying to solve the mystery surrounding the death of an unidentified man about 49 years of age, whose body was found Monday wedged between rocks in a lane at Thompson Village, about 12 miles east of Chardon.

A little girl discovered the body and notified Sheriff Frank Nelson, who, accompanied by Deputy James Radcliffe and Coroner F. S. Pomeroy visited the scene.

The man had not fallen was indicated from the position of the body, authorities declared.

A gold watch and \$2.62 in cash was found on the dead man's person.

Prince No Boxer; Started Too Early

Glasgow, Scotland, July 24.—The Prince of Wales, on his own admission, is no boxer. He explains that he had the fighting spirit knocked out of him when he was young.

Entering the ring at a boys' boxing display here, the Prince congratulated the youngsters on their prowess.

"I am glad," he said, "you did not ask me to have a few rounds. I should have got beaten. I tried boxing many years ago, but I was beaten several times, and I got a bit discouraged."

"I think it must have been that I started fighting too early."

ABOUT TOWN

Order Seeks Clothing

At a meeting of Mary Ellet tent, No. 79, Daughters of Union Veterans, Monday evening at the hall, Main st., a request was received from the Dayton tent for old sheets, pillow cases, silk hose and silk underwear.

These articles are used by the World war veterans at the Dayton home to make rugs. It is stated that some of these veterans have no compensation, and that they earn money by making rugs. Anyone having donations should telephone 830.

Following the meeting there was a social period and lunch.

Rubber Company Picnic

A program of sports, which included two baseball games, furnished entertainment at the annual picnic of the Salem Rubber company employees, their families, and friends, held Saturday at Dun Eden park, Ellsworth rd. About 150 people were interested in the festivities of the day.

A picnic dinner was enjoyed and some of the edibles were furnished by the company.

In the old man's race the honors went to Lawrence Leininger.

Fined On Charge

C. Duck, Egypt rd., arrested Monday by Patrolmen William Reardon and Wilbur Hiddleston on a charge of careless driving, was fined \$10 and costs today by Mayor Phil G. Hiddleston.

The charge was preferred in an affidavit signed by W. W. Dunn, Salem, who alleged that Duck's car had smashed into his automobile while it was parked on Main st. Duck pled guilty to the charge.

City Hospital Notes

Five patients had their tonsils removed Tuesday morning at the Salem City hospital.

They are: Robert Hively, John Doyle, Jr., and Miss Billie Donaldson, of Salem; Kenneth Berg, of Washingtonville; Alfred Martin, of Pittsburgh.

Two patients were discharged: Mrs. Vera Cook, Canfield, and Miss Ethel Hall, Salem.

Division One

Division 1 of the Presbyterian church will hold a business session at 4 p. m., Friday at Centennial park.

Families of the members are invited to come at 6 o'clock for a picnic supper. Those attending are to take sandwiches, a covered dish and table service.

Meat To Give Report

Paul H. Mead, delegate to the grand lodge meeting of the Elks lodge in Miami, Fla., will give a report at the meeting of the Salem lodge Thursday night. Several important matters are to come before the lodge.

American Legion Auxiliary

The American Legion auxiliary will meet at 8 p. m., Tuesday at the Legion home, McKinley ave.

SMITH TO GET COLORED VOTE

Democratic Group Points
To North and South
Backing For Al

Cleveland, July 24.—That Governor Alfred E. Smith, Democratic presidential nominee, will show strength in the coming election among the colored people of the south, as well as in the north, was the prediction of leaders of the National Colored Democratic association attending the convention of that organization here today.

"Colored people are 75 per cent opposed to present conditions under prohibition," said Dr. W. J. Thompson, assistant health commissioner of Kansas City, who is attending the convention.

"Because of the crime and poor health caused by bad liquor, the people of my race are opposed to present conditions under the eighteenth amendment," Dr. Thompson declared. "We are believers in the new abolition—an abolition of ignorance and prejudice in voting."

P. A. Ross, Buffalo, president of the association, and other leaders of the organization, agreed with Thompson that Governor Smith would not only show strength among the colored people of the north but also in the south.

Representatives from every state in the union are attending the sessions which continue through Wednesday.

How They'll Look in the Ring

This picture shows how Champion Gene Tunney (left) and the "old rock from down under," otherwise Tom Heeney, Australian challenger, will look a few brief seconds after they crawl through the ropes at the Yankee Stadium on the night of July 26. Both men are confident as they swing into the last lap of their training for the bout.

Not All Heeney Money Taken At Current Odds On Battle

BY DAVIS J. WALSH
New York, July 24.—Exactly \$10,000 in Heeney money remained in the pocket of a Wall Street broker today because he couldn't get it down at the supposedly current odds of 2½ to 1, favoring Tunney, and unless 1 slightly misjudged the current odds of Thursday's enterprise, there is blame neither for the man who held out the Heeney commission nor the Wall Street crowd that offered him 3 to 2.

It would seem that even the gamblers realize that the time for de-bunking this situation is about at hand.

De-bunked of its last illusion, the affair stands forth as a contest between a right good heavyweight champion, Gene Tunney, and a rather earnest but rather ordinary challenger, Tom Heeney. That, anyhow, is the surface "form" of the situation and, because surface indications often tell all the man who takes worse than 1 to 2 on

Heeney simply isn't giving his intelligence enough road work.

On the other and remaining hand, we have a champion who has failed, by force of circumstances or otherwise, to stake himself to all the breaks that were coming to him. He has fought only 20 rounds against the same man, Dempsey, in three years, a fact over which he had no control.

He has worked with sparring partners so familiar to him from long association that they figure to have helped him negligibly. He has given evidence in his training of having acquired a knockout complex, which, on the face of existing "form," is a piece of inspired absurdity exceeded only by his proposal to fly down 265 miles from Speculator on the morning of the fight.

In view of these known or accepted facts, the Wall Street men who offered only \$15,000 against the \$10,000 commission

on Heeney were doing themselves no particular favor. My offhand guess is that their price is no better or worse than it should be. Tunney, the better fighter on paper, should be the better fighter in the ring and must be so figured until definitely proved otherwise.

The most that can be said for Heeney is that he has better than a merely good chance to win. We know all about him or think we do.

The champion rather obviously has slipped some from the form he knew in the first Dempsey meeting. How much? Is it a 20 per cent depreciation? If so, he still should have a working margin of superiority over the present challenger.

Tunney will have to slip down to Heeney's level to lose the fight and, since we know he really isn't just the man he was, who can say until Thursday night how great the retrogression has been?

BABE RUTH HAS HIS OWN RACE

Western Fans Want More Homers As Yanks Hit Area For Series

New York, July 24.—The Yankees start west tonight on an invasion which is far from crucial, yet they should draw big crowds.

Western fans are anxious to witness the only race left in the American League—the race between Babe Ruth and his last year's home run total to 60. The home run king reached the two-thirds mile-stone in Boston yesterday when he clouted his 40th four-bagger of the season, and needs only 21 more in New York's 63 remaining games to set a new mark.

The Babe is now 11 homers, 30 days and 28 games ahead of last year's record pace. Homer No. 40 easily cleared the left-center field fence in Fenway Park, virgin territory for the league's sluggers. Ruth's mates couldn't hit Danny MacFadden, however, and lost to the Red Sox 8 to 3.

The Athletics lost a chance to gain when they were whitewashed by the Senators, 5 to 0. Washington's fifth straight victory snapped the Mackmen's winning streak of seven.

Young George Blaeholder held Cleveland to five hits and no runs while the Browns, led by Heinie Manush, kayced George Uhl and scored 10 runs.

Fred Fussell of the Pirates won a 2 to 1 duel from Buzz McWeeney when Grantham doubled following buh league plays by Herman and Hendricks and a balk by McWeeney.

Other teams did not play. The eastern invasion of the western National League teams gets under way today with St. Louis playing Brooklyn, Pittsburgh meeting New York and Cincinnati playing the Phillies.

TRAPSHOOT AT CLUB WEDNESDAY

Sebring Team Will Oppose Salem Country Club In Dual Match

The Salem Country club trapshoot team will meet the Sebring trapshooters' club in a shoot at the Country club Wednesday afternoon.

The shoot is the second of a series being scheduled by the Salem club. O. F. Birkheimer is in charge of the club contests and is arranging the schedule.

On Wednesday, August 1, a ham and bacon shoot will be held at 11 a. m.

club, Birkheimer announced today. Herbert Zimmerman of the Salem team had a perfect score in the shoot held at the club last week. Zimmerman shot 50 birds out of a possible 50, tying with Smith of Lisbon, who also made a perfect score. Salem, Lisbon, and Leetonia participated in the shoot.

Other scores made follow: Strawn, Lisbon, 48 out of 50; Joe Birkheimer, Salem, 46 out of 50; Johnson, Leetonia, 45, and Hamilton, Lisbon, 45.

The results of a practice shoot held Monday evening are: J. Birkheimer, 46 out of 50; P. Birkheimer and H. Zimmerman, 44 out of 50; S. Chisholm, 43 out of 50; J. Burcaw, 41 out of 50; R. Burns, 37 out of 50; B. Burcaw, 31 out of 50; and C. Metz, 25 out of 45.

Week's Schedule

The schedule of city playground baseball league games for this week follows:
Tonight—Federals vs. City Hall.
Wednesday—Mullins vs. Electric Furnace.
Thursday—Pottery vs. Masons.
Friday—Collegians vs. Methodists.

DAMASCUS BEATS COLLEGIANS TEAM

Salem Outfit Drops Game In Ninth When Barber Steals Home

The Damascus Business Men made one of their nine hits come at night in their "mush" ball game with the Salem Collegians at Damascus and squeezed through for 7-6 win.

The game was won in the ninth when Grafton misjudged Barber liner which went for a triple. Frinn and Grice were given horizontal passes to set the stage for a double play, but Barber ruined the effort by cracking home for a perfect steal with the winning run.

The Collegians had no trouble knocking Gilbert, the Business Men's star twist artist, collecting a total of 4 hits. Poor base running inability to hit in the pinches caused defeat. In the first, second, fourth and sixth innings and bases were filled with one out but the Collegians were unable to count more than their set of markers.

Myers started for Salem but was puffed for five hits in the first two games, and Earley, newcomer to Salem pitching ranks finished in valiant style.

EVANS TO MEET HARRY MARTONE

Heavy Hitting Lads Mix At Idora Park Wednesday Night In Show

When Promoter Al Zill of Youngstown, shows Dick Evans of that city and Harry Martone of Jersey City, at Idora park, on Wednesday, he will be showing the fans one of the greatest hitters in the middleweight ranks.

Evans has always been known as a dangerous hitter, and from a look at this fellow Martone's record it seems that for once he will be facing a boy who can hit as hard if not harder than even Dick can.

Both of these lads are not only deadly clouters, but are also recognized as mighty clever defensive boxers. That combination usually means a mighty sweet battle as both men are so evenly matched that their doesn't seem to be a shade in favor of either boy, unless one has to give the palm to Harry because of his tremendous hitting.

Johnny Kusio who made such a big hit here by stopping Ed Litz, the Warren south paw in jig time will meet Roy Mitchell of East Liverpool, in the six round semi windup.

Charley Pickard and K. O. Brian, two light-heavyweights will swap punches in another six rounder, while Tony Jordan and Tony Sabels and Jimmy Kaplan and Yonk Lee will do the honors over the four round route.

MOVIES

"FRENCH DRESSING"

A delightful story, which unfolds with real sparkle, is "French Dressing," which is at the State tonight.

The plot is amusing and tells the story of a cold little Boston wife who really learned how to live through a trip to Paris. Lois Wilson is the wife, and her transformation from the prim Boston matron, with long tresses, to the beautiful girl with bobbed hair and Paris gowns, is realistically portrayed under the direction of Allan Dwan.

The cast does excellent work. H. B. Warner as the Boston husband who wishes his wife would be a little less prim, a little less cold; Lilyan Tashman as the gay girl friend who comes for a visit, and whose innocent actions unwittingly cause Lois to leave home and go to Paris for a divorce; and Clive Brook, as the suave man-about-Paris, all give portrayals that are finished to the highest degree.

The story has many angles, particularly in the conclusion, which has a delightful twist. And of course the situation of finding Lois Wilson playing the role of a girl who wants to be naughty, and Lilyan Tashman as the girl who wants to be nice, is an entire reversal of form.

"Campus Cuties," a comedy and Pathe News accompany the feature.

"CHICKEN A LA KING"

George Meeker, Carol Holloway, Nancy Carroll, Ford Sterling, Frances Lee, and Arthur Stone are the featured members of the cast taking

part in the gloom chaser, "Chicken a la King" which plays tonight at the Grand.

Thrill, mirth, and gripping suspense are continuous as Ford Sterling, the husband of 20 years of married life breaks the bonds of conventionality and starts to burn his fingers on the white lights of brightest Broadway.

The picture tells the story of a husband who for 20 years has forced his wife to dress on an allowance which barely permitted her to appear respectably clothed before her friends. Then, in trying to save the family reputation from being sullied by the marriage of his brother-in-law to a chorus girl, the husband himself becomes a victim of the charmer.

How the girl leads him on, only to betray him to his wife and how the two women make him pay for the wife's 20 years privations forms the basis for a series of hilarious situations.

Sterling and Arthur Stone take the lead in the comedy of the picture. Sterling being the husband, Horace Trundle, Carol Holloway is Mrs. Trundle.

The comedy "Only Boyd" is an added feature.

STYLE EDICTS

Paris, July 24.—Country frocks are minus sleeves this summer judging from the smart ones that are now appearing at the chic country places on this side of the water.

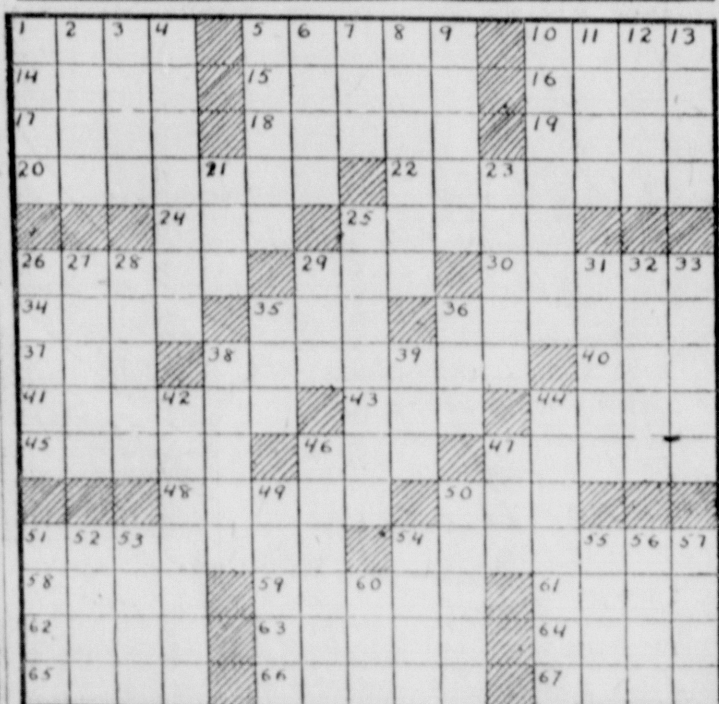

For town wear, long-sleeved frocks, even on the hottest days, are in order, but the country outing or sports meeting demands their omission. To go with them there must of course be fashionable tanned arms which are sometimes acquired during the winter in the South or else by a few visits to the beauty doctor who knows exactly how to produce beautifully golden-brown arms these days.

Molyneux is showing charming country frocks in white tulle or shantung which can stand much laundering. They are very simple and practical and yet very smart.

Very often the only trimming is the large handkerchief of self material tied around the hips to give a snug line. The skirts are knifeplicated from a center-front box pleat. White pique makes another charming sleeveless country frock. It is one piece but looks like two, the sleeveless blouse is cross over the front and attached under two pique buttons. The skirt has a deep yoke like very many this season and is pleated below.

Paris.—A Geneva dispatch to Le Matin recently said that an airplane for the first time had aided mountain climbers whose lives were in danger. The French pilot Thoret, flying over Mont Blanc, saw distress signals given by an Alpinist named Goy, whose companion had rolled down a 2,000-foot slope when a frozen rope broke. The pilot went to a landing field and painted "Don't move" on the wings of his plane. Then he circled over Goy until he had read the message and then summoned rescuers who saved the two men.

THE GUMPS—A WORD TO THE WIFE IS SUFFICIENT

THE HOME KITCHEN

By Jeannette Young Norton

Using Cheese as a Meat Substitute

Cheese is one of the cheapest and best foods. That is, pound for pound, cheese is richer in protein and fat than meat. Being a hearty food it should be so considered in manner of service. When it is said to disagree with people, it is generally found that it has been served at end of a hearty meal with a rich salad or pastry course.

Almost every nation has some sort of cheese, excepting, perhaps, the Japanese, who use their bean kurd in its place. In France it is said that about 250 names are given in different localities to about a dozen different kinds of cheese. Cheese is made from the milk of cows, goats and sheep, differing in the process of making by the many nations who use it. The darkest cheese comes from Sweden and Norway and looks like a large cake of soft, creamy chocolate, and it is very delicious. Foreign grocery shops show many of the various native cheeses.

Caring for cheese in the home is of importance. After being cut the cheese should be wrapped in damp cheesecloth, then in paper, and placed in a cool cupboard. The best way to cut cheese is with a hot knife or stout linen twine, or a fine wire wound at the ends about two clovepins to be used like a saw. Soft cheeses should be wrapped in wax paper and tin foil after using and be kept in a cool place.

Milk and Cheese Soup
Heat three cups of milk in a double boiler and when hot thicken with white roux, season with pepper, salt, a little sugar, a teaspoonful of onion juice and just at serving add three-quarters of a cupful of grated American cheese.

Corn and Cheese Fondue

Melt a tablespoonful of butter and cook in it a tablespoonful of minced green pepper. Make a sauce of two cups of milk, thickened with a scant half cupful of flour-worked smooth in a little milk and strained into the other milk. Then add a cupful of grated cheese, a cupful of corn cut from the cob, the beaten yolks of four eggs, pepper, a little sugar and the whites of the eggs beaten stiff. Pour into a buttered baking dish and bake in the oven for 30 minutes. Serve as soon as cooked.

Cheese Ring Salad
Soften a tablespoonful of gelatin in a half cupful of thin cream. Dissolve over hot water. Add five tablespoonfuls of grated cheese to a cupful of whipped double cream, adding a saltspoonful of mustard, pepper, paprika and a half saltspoonful of salt. Add the gelatin and turn into a wet ring mould. Set to harden and chill. Unmould on lettuce leaves and fill the center with a vegetable salad.

When Pain Comes

Two hours after eating

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been overstimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as

much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia, prescribed by physicians for 50 years in correcting excess acids; 25c and 50c a bottle—any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875. Adv

MILL END Sale

A semi-annual sale developed by McKelvey's over a period of thirty-one years until now it ranks as one of Ohio's greatest mercantile events.

No longer a carnival of fish-tail banners, short lots, mill ends, factory clean-ups and sub-standards—but, an energetic, store-wide promotion of clean, reliable, McKelvey standard quality merchandise.

Practically Everything Needed for Home or Person — Priced to Assure Real Savings!

Hundreds of special NEW purchases together with hundreds of items from our regular assortments—all specially priced.

Advance Inspection Now!

For the convenience of the many patrons of this great event and to relieve the congestion of first day selling—inspection and selection of many Mill End values may be made now.

RELIABLE USED CARS

We Tell You The Truth About Our Used Cars

When you buy a used car it's pretty hard to tell its condition just by looking at it.

Our appraisal of every used car is based on our mechanic's knowledge of its actual worth. And when we sell it we will always tell all we know about it.

We want you to be satisfied with the used car you buy here because we want to keep you as a used and new car customer.

It pays, in the long run, to buy a used car from a Buick dealer.

FRENCH TO TRY
(Continued from page 7.)

Not a little pep into their steeds by the grafting of a Voronoff. The Voronoff operation has in fact already been accomplished with brilliant results. The case in hand is that of Don Zungia. His owner, M. Vell-Picard, is to win the Grand Hurdle Race at Paris, where there was room for improvement, even if the horse himself could not exactly be classed as a "sawbore." The operation was performed in accordance with the best rules laid down by Voronoff.

The big race was run at Auteuil. At the start's signal, Don Zungia, released by his jockey, went away like a streak of lightning. The 22 hurdles were negotiated as if they had never been there to obstruct the way. Don Zungia won as he wanted. The 5,000 meters (a little better than three miles) were run in record time, 5 minutes 6 seconds. No horse has ever before been able to make that time at Auteuil.

How owners are enthusiastic, but race courses with cocoanut palms and other tall timber may be these removed for fear that money-gladdened contestants will run up a tree at the critical moment.

AMERICANS SET
FOR OLYMPICS

Parade Opens Games This Saturday; British Pick But 57 On Team

Amsterdam, July 24.—Fully acclimated to the Dutch lowlands, the Athletics who will represent the United States in the Olympic games here, all appeared to be at top form today.

Among the track and field stars whose performances here already have indicated that America's Olympic laurels will be well protected are John Kuck, the shot-putter, Lloyd Hahn, the middle distance runner and Frank Wykoff, the youthful sprinter.

Clarence "Bud" Houser, shot and discus star, and Johnny Weissmuller, the "human fish," both of whom were double winners in the last Olympic games at Paris have been selected by the committee to carry the team's colors and standard respectively in the parade on the 28th which will officially mark the opening of the games.

London, July 24.—The British Olympic team has been picked, and, one the whole, the selections meet with popular approval.

The number is smaller than usual, only 57 having been chosen against 71 in 1924. In this connection it is pointed out that three events in the Olympic games at Paris four years ago will not be held at Amsterdam. They are the pedestrian contest, the cross country run and the team race. A full complement is being sent for the track events.

British deficiency will again be

conspicuous in the field events. Not a single British competitor will take part in the discus, javelin or hop-step-jump contests. Many believe that the seven British contestants in the long jump, pole vault, hammer, weight and decathlon competitions have only a remote chance of gaining points.

The track events show the only chance of British successes. In these, it is hoped, the British record of securing a finalist in every track event of the past two Olympics will be maintained.

J. E. London is believed to have a good chance of getting into the 100-meter final, but he will have three hard heats to run against strong American and German competition before he achieves this place.

SCIENCE PLANS ERADICATION OF "WHITE PLAGUE"

National Chairman Says Progress Being Made In Diseases Fight

Portland, Ore.—July 24.—Those who toil with microscope and test tubes in a ceaseless struggle to overcome the ravages of the "white plague" are being slowly rewarded with success for their efforts, and today science is looking at the disease as a "curable thing," according to Dr. H. J. Corper, chairman of the pathological section of the National Tuberculosis association.

Dr. Corper in an interview here gave a message of hope to the thousands now afflicted with the malady. "The reports of research work now in progress point hopefully to control of this problem," he said.

"Today we are looking at the disease as a curable thing. We know tubercle bacilli can be destroyed and that tuberculosis in favorable cases can be arrested."

Seek Eradication
"Science is working toward eradication of tuberculosis. It will come by first appreciating that the disease is curable and then striking at the heart of the germ both in and outside the body. The campaign against tuberculosis has two fundamental aims: The destruction of bacillus at its source and the building up of the health of the individual."

"We have passed historically speaking, through the period when tuberculosis was believed to be an always fatal and hopeless disease. Today we are concerned more with the healing processes, their mechanisms and how we can bring the balance to bear on this side of the equation."

"Studies on the protein fraction have provided a purified protein tuberculin fraction which has been studied with gratifying results and will soon be available for use to replace the former, impure old tuberculin."

Near a Solution
"The separation of definite fat fractions from the human tubercle bacillus have led to the isolation of the saturated fatty acid unit possessing the property of rapidly stimulating the multiplication of the monocyte in which the tubercle bacillus lives during its early residence in the body."

"Later studies indicate that preliminary treatment with this fraction greatly augments the rapidity with which tuberculosis develops in certain animals. If this is true," he concluded, "it may be assumed the opposite is true and it may be we are on the threshold of our final journey."

WASHINGTONVILLE

Mrs. Oren McClun entertained a number of friends in her home on Saturday evening in honor of the birthday anniversary of Mrs. Roy Mathey. Five hundred entertained and prizes were awarded to Mrs. McClun and Oswald Rahnut and the consolation gifts went to Mrs. Con Morley. Mrs. Mathey received a number of pretty gifts, among them a beautiful birthday cake. The hostess served lunch. Those present from out of town were Vaughn Nichols and sister, Carrie of Leetonia. Mr. and Mrs. Wm. Gray of Poland. Mr. and Mrs. Paul Vignon. Mr. and Mrs. Wilber Vignon and Mr. and Mrs. Con Morley and family of Youngstown.

THOMPSON BACK FROM HONDURAS HAS COLLECTION

300 Objects Obtained To Prove Mayan Culture Was High Order

Chicago, July 24.—J. Eric Thompson, leader of the Captain Marshall Field expedition to British Honduras, has returned to Field Museum of Natural History with a collection of more than 300 objects representative of ancient Maya culture, which he excavated on the sites of three-buried cities which he discovered.

One of these cities dates back to 200 B. C., according to inscriptions on stones discovered by Mr. Thompson. The other two flourished about 575 A. D. Mr. Thompson, who is assistant curator of Mexican and Maya archaeology at the museum, spent about six months on his explorations and excavations. There were no other white men on the expedition, but he was assisted by Maya Indians, who are the descendants of the builders of the ancient cities.

Important Relic
The most important relic brought to the museum is a sculptured Maya altar stone, the only one with a legible date ever brought to the United States. On it is carved in Maya hieroglyphics a date in their calendar which corresponds to 575

A. D., in the European calendar. The stone has a carved picture of a prisoner with arms bound behind his back and is believed to signify a human sacrifice under the ancient religion.

Thompson also gained entrance to an ancient tomb in which was buried a patriarch believed to have been both high priest and king. Beside it was a smaller tomb containing the body of a woman, thought to have been the favorite wife of this dignitary. From these, and other ancient graves and mounds, Thompson unearthed many jade ornaments, pieces of pottery, and other objects buried with the dead for their use in the next world. The ancient cities, Thompson said, consist largely of groups of pyramids, surmounted by the ruins of ancient buildings. In these pyramids he found relics and records, buried as moderns place records in the cornerstones of buildings.

Scientific Significance
The chief scientific significance of his discoveries, Thompson declared is that they bear evidence of a very early influence upon Maya civilization of the Guatemala Indians, who were their neighbors. Thompson named the three cities in the Maya language, as follows: "Tzimin Cax" which means "mountain cow" or tapir, because of the prevalence of these animals in the vicinity of the first site, which is the oldest yet found in British Honduras; "Hatzcap Ceel" which means "cold dawn" and describes conditions encountered there; and "Cahal Pichic" which means "emerald toucanets," these being beautiful exotic birds which abound in the vicinity.

To reach the scene of operations,

Thompson had to travel about 140 miles into the interior from Belize, the capital, by launch, native canoe, on mules, afoot and by tractor.

Cincinnati—William R. Hughes of Cincinnati today was wondering how he did it. Hughes' four cylinder roadster hit a stationary Penn-

sylvania freight train broadside and knocked two box cars off the track. His automobile was demolished but Hughes was uninjured. He was arrested on a charge of reckless driving.
